the debate about our dna database the largest per capita in the world has dominated headlines throughout the last few years britain has more cctv cameras than any other country in the world and even more are being installed including in private homes facing out into the street with the intercept modernisation programme the current government plans to record details of every telephone call made and e mail sent by people in the united kingdom a database of households is set to be compiled for health and safety reasons is planned by the nhs the independent safeguarding authority continues to plan a compulsory register of all those who regularly come into contact with children perhaps a third of adults in the country stop and search powers under the terrorism act are argued about as photographers are arrested for taking photographs of public buildings data chips in our bins monitor our domestic waste despite a temporary retreat on their compulsory status identity cards and more importantly the database behind them remain with us what is the future for civil liberties in modern britain big brother watch brings together a collection of essays by experts in fields affected by the increasingly authoritarian nature of

british culture in a country so illiberal it s almost as if normal life is becoming unlawful

this book explores the concept of multi species relationships and suggests critical systemic pathways to protect shared habitats this book discusses how the eradication of species as a result of rapid urbanisation places humanity at risk this book demonstrates how narrow anthropocentrism has focused on the rights of human beings at the expense of other species and the environment this book explores a priori norms and a posteriori measures and indicators to include and protect multiple species this book aims to strengthen institutional capacity and powers to address and extend the un 2030 sustainable development agenda by drawing on local wisdom but also the need to implement laws to prevent ecocide this book highlights that our fragile interdependence requires a recognition of our hybridity and interconnectedness within the web of life and suggests ways to reframe policy within and beyond the nation state to support living systems of which we are a strand

after 9 11 american officials authorized torture extraordinary rendition indefinite detention military commissions targeted killing and mass surveillance this book analyses the role of human rights and humanitarian legal norms in shaping these practices by strategically manipulating legal rules policymakers and their lawyers successfully normalized abuses and secured impunity for human rights violations

in this somewhat emotional book you will find it argued that anthropogenic global warming agw is not real but is in fact no more than a political tool actually we d be better off with more carbon dioxide rather than less further along in the book you will find reasons and possible ways to in fact stop the failed experiment of politics and return to a more natural order liberty no aggression no hypocrisy and a better future for all it s the only way forward for mankind planetkind also government has turned against the people and has thereby waived its right of existence the only way forward for human kind would be without government in its entirety as government will always devolve into what it is now a force for harm like it or not this leaves open only one also the most durable option anarchism do not fear disorder anarchism shall lead to more order in society anarchism is better in so many ways that they would fill a whole book and still leave out some

the name says it all part 1 of the law suit trilogy it is my homage to my favorite classic industrial bands ministry my life with the thrill kill kult pigface bile kmfdm skinny puppy and even nine inch nails and ooze tis literally my favorite songs done into a 100 page graphic novel if you are a fan of these bands you will want to either own this book if you are in those bands you will either love it or send us a cease and desist letter

an investigation of two manuals of inquisition reveals much about the practice in action the inquisition played a central role in european history it moulded societies by enforcing religious and intellectual unity it helped develop the judicial and police techniques which

are the basis of those used today and it helped lay the foundations for the persecution of witches an understanding of the inquisition is therefore essential to the late medieval and early modern periods this book looks at how the philosophy and practice of inquisition developed in the fourteenth century it saw the proliferation of heresies defined by the church notably the spiritual franciscans and beguines and the classification of many more magical practices as heresy the consequential widening of the inquisition s role in turn led to it being seen as an essential part of the church and the guardian of all the church s doctrinal boundaries the inclusion of magic in particular also changed the inquisition s attitude towards suspects and the use of torture became systematised and regularised these changes are charted here through close attention to the inquisitorial manuals of bernard gui and nicholas eymerich using other sources where available gui s and eymerich s personalities were important factors gui was a successful insider eymerich a maverick but eymerich s work had the greater long term influence through them we can see the inquisition in action derek hill gained his phd from the university of london

pcmag.com is a leading authority on technology delivering labs based independent reviews of the latest products and services our expert industry analysis and practical solutions help you make better buying decisions and get more from technology

the surprising history and legacy of the inquisition the renowned historian and critic jonathan kirsch presents a sweeping history of the inquisition and the ways in which it has served as the chief model for torture in the west to this day ranging from the knights templar to the first protestants from joan of arc to galileo from the inquisition s immense power in spain after 1492 when the secret tribunals and torture chambers were directed for the first time against jews and muslims to the torture and murder of hundreds of thousands of innocent women during the witch craze and to the modern war on terror kirsch shows us how the inquisition stands as a universal and ineradicable reminder of how absolute power wreaks inevitable corruption

this scarce antiquarian book is a facsimile reprint of the original due to its age it may contain imperfections such as marks notations marginalia and flawed pages because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work
