future career in financial accounting new to this edition real world examples more applied and practical examples that focus on the how to of financial accounting currency comprehensive and up to date coverage of areas such as financial statement presentation the conceptual framework for financial reporting accounting for leases revenue recognition financial instruments and corporate social responsibility reporting

given the increased social and environmental problems in china this book looks into the social and environmental disclosure practices of socially responsible chinese listed firms by constructing a stakeholder driven three dimensional disclosure index the book contains a three part study the first part explores the current status of social and environment disclosure practices the second part empirically examines the relationship between corporate social and environmental disclosure and various influencing factors i e stakeholders power and corporate characteristics the third part empirically examines the link between corporate social responsibility csr reporting i e publishing a csr report and the quality of the csr report and socially responsible reputation the book finds that the csr report provided more stakeholder relevant social and environmental disclosure than the annual report it also finds that corporate characteristics such as firm size profitability and industry classification are all statistically significant factors influencing the social and environmental disclosure of the chinese firms studied shareholders significantly influenced firms social and environmental disclosure and creditors significantly influenced firms disclosure related to their environmental performance the final part of the study reports that publishing a csr report and csr reporting quality had a positive influence on firms socially responsible reputations and that the ceo chairman duality negatively influenced firms socially responsible reputation this book will be of interest to those who are keen to learn more about corporate social responsibilities in the context of chinese firms

this book explores recent developments in the theory strategic perspective and international practice of corporate social responsibility in particular it discusses the consequences of the economic slowdown apparent in many economies and the impact of changes in the regulatory environment it consists of three parts part one addresses a variety of theoretical approaches as well as the dynamics and criticism of corporate social responsibility it takes into account social and governmental expectations for the new and extended role of companies in the economy and in society and provides a new context and theoretical assumptions regarding the functions and tasks of corporate social responsibility part two discusses the practical aspects relating to strategic management and corporate governance

corporate disclosure and reporting as well as the empowerment of stakeholders lastly part three focuses on the international practice of corporate social responsibility in various organizational and institutional settings using numerous case studies the book explores the challenges and tasks of csr in emerging markets in the fashion industry and in global and family companies it identifies the changes that can be detected following the financial crisis closing the loop and linking the empirical findings with the revised theoretical framework

in recent years corporate social responsibility csr reporting in china has been experiencing a rapid development and the number of social reports issued by chinese enterprises shows a sharp increasing trend this book investigates the evolution of such reporting practice in the country and the reasons behind it in addition it also examines the reporting quantity and quality of chinese enterprises by applying the gri global reporting initiative as an evaluation tool in response to policy documents so as to obtain the government's recognition and to strive for more resources state owned enterprises private enterprises and foreign invested companies have made substantial efforts in social reporting in terms of quantity and coverage however it appears that there is still room for enhancing the quality of disclosure the book also highlights the central government's economic political and social roles in promoting encouraging and controlling the development of csr reporting

using the lens of stakeholder theory this book examines whether the current practice of corporate social responsibility reporting in developing countries is motivated by a desire to discharge accountability to all relevant stakeholders or whether it is being driven by the imperative of advancing corporate economic interests

this book examines the determinants of the level of sustainability reports of mining companies in ghana in the absence of regulatory and statutory requirements it adopted the use of content analysis by probing the question of whether there is an effect of factors such as size growth rate profitability efficiency gearing ratio working capital ratio age and complexity of the mining companies on the level of disclosure in sustainability report the book also reviewed some of the traditional theories used in the accounting literature to examine sustainability reporting practices the book also provides insights into the various sustainability reporting initiatives

the much anticipated fourth edition of craig deegan's financial accounting theory delivers authoritative and completely up to date material with the discussion of both existing theories and newer theories that have surfaced as

financial reporting has become more international this edition includes a new selection of modern accounting headlines which provide current examples of organisations and individuals putting accounting theory into practice in both local and global settings financial accounting theory covers additional topics such as critical perspectives public sector accounting and fair value workflows and processes are presented using enhanced visual charts to help demonstrate how accounting works in practice deegan presents the concepts in a clear and straightforward style while challenging students to think critically about the range of accounting theories financial accounting theory provides a sound basis for readers contemplating further research and develops habits of analytical reasoning and critical thinking
