where anti corruption efforts were previously the domain of governments the private sector has increasingly become an essential actor representing a significant paradigm shift from the early days of anti corruption policy development this resource guide provides states with a framework for identifying and implementing an appropriate mix of sanctions and incentives for encouraging business integrity it reflects the latest developments in the global anti corruption landscape and contains case studies that serve to share information and practices and provide inspiration to states and the private sector

there is currently no comprehensive scientific study that addresses the problem of financing projects using distributed ledger blockchain technology dlt that are not themselves embedded in the blockchain ecosystem particularly in the context of long term and capital intensive investments this book fills this gap it poses a number of research questions such as what financing model mechanism is the most effective in the long term where very large financial resources are concerned are there appropriate legal regulations in place and can dlt blockchain technology provide usability and solutions that can be used in the process of financing capital intensive investments the book ultimately shows that it is possible to build a legal and economic model that would effectively enable the financing of long term and capital intensive investments based on a specially prepared integrated platform operating on the basis of blockchain technology as a result of the mechanisms of smart contracts the platform would enable the issuance and service of tokens including equity tokens but also auxiliary and

payment or utility tokens and the automation of relations between stakeholders it would also allow the creation of a virtual decentralized autonomous organization dao that would control the implementation of the project and a decentralized exchange that would enable token trading the core readership for the book is academics scholars and researchers in the fields of economics finance and law particularly those focused on blockchain technology distributed ledger systems and innovative financing mechanisms for large scale investments policymakers and regulators involved in developing policies and legal frameworks for blockchain technology cryptocurrencies and financial innovation would find it to be a practical reference the open access version of this book available at taylorfrancis com has been made available under a creative commons attribution non commercial no derivatives cc by nc nd 4 o license
