data is an intrinsic part of our daily lives everything we do is a data point many of these data points are recorded with the intent to help us lead more efficient lives we have apps that track our workouts sleep food intake and personal finance we use the data to make changes to our lives based on goals we have set for ourselves businesses use vast collections of data to determine strategy and marketing data scientists take data analyze it and create models to help solve problems you may have heard of companies having data management teams or chief information officers cios or chief data officers cdos etc they are all people who work with data but their function is more related to vetting data and preparing it for use by data scientists the jump from personal data usage for self betterment to mass data analysis for business process improvement often feels bigger to us than it is in turn we often think big data analysis requires tools

held only by advanced degree holders although advanced degrees are certainly valuable this book illustrates how it is not a requirement to adequately run a data science project because we are all already data users with some simple strategies and exposure to basic analytical software programs anyone who has the proper tools and determination can solve data science problems the process presented in this book will help empower individuals to work on and solve data related challenges the goal of this book is to provide a step by step guide to the data science process so that you can feel confident in leading your own data science project to aid with clarity and understanding the author presents a fictional restaurant chain to use as a case study illustrating how the various topics discussed can be applied essentially this book helps traditional businesspeople solve data related problems on their own without any hesitation or fear the powerful methods are presented in the form of conversations examples and case studies the conversational style is engaging and provides clarity

volume i provides a conceptual framework for the analysis of demilitarization and peace building processes applicable particularly in the southern africa context this volume argues that a broad concept of peace building has to take into account economic political social and cultural factors at the local national and regional level
