this text teaches how to think and reason about macroeconomic events and policy it seeks to combine

economic theory with a feel for south african economic processes institutions and data

this erudite book examines the theory of explanatory games jonas g lipski argues for a comparative approach to the philosophy of economics applying theoretical ideas to central controversies in the field

this volume of eurasion studies in business and economics includes selected papers from the 44th eurasia business and economics society ebes conference held in istanbul on july 6th 7th and 8th 2023 and hosted by istanbul bilgi university türkiye the theoretical and empirical papers gathered here cover diverse areas of business and management from different geographic regions

this handbook maps the media economy in its entirety against the background of the advancing digitalization of communication media production media distribution and the adaptation of regulatory framework conditions from different disciplinary approaches it provides an integrated view on digitally induced economic transformations of the european media sector and gives an explicitly european perspective on media economics challenging the dominant us american view topics covered include but are not limited to theoretical approaches to media economics media technologies and data management in media economics building blocks of the media industry media types and core distribution markets system aspects and communication culture media systems and regulatory policy as well as methods of media economics the handbook is a must read for students teachers and researchers in media and communication economics and science as well as practitioners and policy makers at the nexus of media business and politics

collection of essays on economic theory most of the essays originally appeared in the late 1920s in german journals devoted to the social sciences with the original german language collection being issued in 1933

methodology of economics and other social sciences covers the problems in the methodological aspects of economics and other social science disciplines this book is organized into seven parts encompassing 26 chapters the first parts review the nature and significance of methodology of economics along with the models and theories in the field the succeeding parts deal with the verification problems operational concepts and interpretation of reality in economics other parts explore the methodological aspects of

other social sciences the last parts discuss some aspects and applications of economic methodologies this book will be of value to economists social scientists and researchers

the book examines the effect of labour markets on economic performance in an international perspective europe japan and the us labour markets are an important determinant of the performance of both national economies and individual firms as well as employment rewards such as wages and satisfaction levels many countries in europe suffer from a high level of unemployment the us economy suffers from low real income growth and widening wage dispersions the level of worker satisfaction in japan is relatively low despite her relatively better economic performance the purpose of this book is to investigate these issues and to provide readers with explanations of these phenomena and the differences in the performance of labour markets in europe japan and the us the book includes both theoretical and empirical studies of various countries undertaken by leading labour and macro economists and presents several policy suggestions

this book further develops both the traditional and the behavioural approach to competition law and applies these approaches to a variety of timely issues it discusses several fundamental questions regarding competition law and economics and explores the applications of competition law and economics in turn the book analyses the interplay of intellectual property rights and patents in various aspects of competition law and investigates the impacts that developments in information technology such as big data analytics have on competition law the book also discusses the impact of energy law reforms on energy markets from a competition law perspective competition law is a classic field of economic analysis this is largely due to the fact that competition law uses terms such as market price and competition and must therefore rely on economic know how and analyses in the united states economic analysis has greatly influenced not just the scholarship on antitrust law but also judicial decisions and agency enforcement antitrust law and economics are based on the traditional paradigm of neoclassical economics which relies on the assumption that the market players i e consumers and producers are rational this approach to competition law was later received in europe under the banner of a more economic approach for the past two decades behavioural law and economics which seeks to generate better insights into legal phenomena by providing more realistic psychological foundations for economic models and to offer a multitude of applications in legislation and legal adjudication has challenged the traditional economic approach to law in general and more recently to competition law

specifically

this edition includes 337 more entries bringing the total to over 1 400 thumbnail sketches of economists who have contributed to the literature over the past three centuries

this book develops a philosophico methodological analysis of prediction and its role in economics prediction plays a key role in economics in various ways it can be seen as a basic science as an applied science and in the application of this science first it is used by economic theory in order to test the available knowledge in this regard prediction has been presented as the scientific test for economics as a science second prediction provides a content regarding the possible future that can be used for prescription in applied economics thus it can be used as a guide for economic policy i e as knowledge concerning the future to be employed for the resolution of specific problems third prediction also has a role in the application of this science in the public arena this is through the decision making of the agents individuals or organizations in quite different settings both in the realm of microeconomics and macroeconomics within this context the research is organized in five parts which discuss relevant aspects of the role of prediction in economics i the problem of prediction as a test for a science ii the general orientation in methodology of science and the problem of prediction as a scientific test iii the methodological framework of social sciences and economics incidence for prediction as a test iv epistemology and methodology of economic prediction rationality and empirical approaches and v methodological aspects of economic prediction from description to prescription thus the book is of interest for philosophers and economists as well as policy makers seeking to ascertain the roots of their performance the style used lends itself to a wide audience

includes annual list of doctoral dissertations in political economy in progress in american universities and colleges and the hand book of the american economic association
