this is the companion volume to hermetic qabalah a foundation in the art of magick and is a complete course of practical instruction in magick the practical work in this book is based upon systematic meditations upon the paths of the

hermetic tree of life following the downward course of the lightning flash from kether to malkuth through a one year course of practical instruction the student learns how to create an astral double as a medium for forging the inner plane contacts that alone make real initiation a possibility the preliminary work includes the wisdom of breath ritual sonics the assumption of the godform and a powerful modern variation of the lesser ritual of the pentagram as suitable for the new aeon once these techniques are mastered the student moves step by step to an advanced hermetic magical operation

while it began as a mystical interpretation of jewish scriptural texts today qabalah is much more as john bonner writes in his introduction qabalah is a metaphysical philosophy or rather a theosophy that sets out to answer a series of vital questions regarding the nature of god his creation and the place of man in his divine plan it is a living growing system of personal development in addition much of contemporary western magick is founded on the work of the hermetic order of the golden dawn which based its ritual and teachings firmly in qabalah this scholarly introduction explores the mysteries of qabalah through the symbolism of the tree of life and its four distinct elements the three pillars of manifestation the ten holy sephiroth the paths that run to and from the sephiroth and the veils for each sephirah bonner provides detailed information on magical astrological and tarot correspondences as well as how different religious traditions relate to the concepts contained in each

how can the tree of life the essence of the qabalah be of use in our modern world learn how this map of consciousness is relevant

the cube of space workbook seeks to make the cube a symbol that illuminates the esoteric meaning of the hebrew alphabet and the major arcana of the tarot more accessible to students of the qabalah and tarot as author joy nur worked with this symbol she found correspondences with directional attributions in a variety of traditions this workbook is designed to deepen the student s understanding of the

tarot keys and discover practical ways to apply the insights revealed by a study of the structure of the cube of space as the cube is a symbol of three dimensional reality and tarot images are archetypal symbols for human states of consciousness study of this symbol also sheds light on the human condition and the workings of the mind the directional attributions also relate to cycles of life and give clues about the universal desire for a return to the source of our being and the search for the meaning of life while this workbook is designed to offer readers the opportunity to make their own discoveries nur s brief commentary on each view of the cube of space offers seed ideas for contemplation that come from her own meditative efforts the author presents the book as a useful meditation tool expounding on the teachings of paul foster case the founder of builders of the adytum a western mystery school the workbook is well written the author keeps the text understandable and to the point and it comes in a handy and portable format recommended by the u s review of books

the popular perception of the tarot is as a tool for fortune telling but this book introduces it as a vehicle for initiation the true function of all mystery traditions it involves readers in a process of personal transformation in which the tarot trumps are related to the tree of life to provide a classic initiatory structure the keys to initiation are themselves presented through a series of integrated intellectual intuitive tasks culminating in an extended meditation on the tarot trumps the book also includes some private anecdotes which illustrate how the trumps come to life within the psyche

a study of the qabalah and its great symbol the tree of life along with the basic ideas of modern occultism in the western world this is an excellent introduction to the western mystery tradition and the symbolism of the qabalah the practical qabalah discusses pathworking procedures of qabalah in light of the archetypes of jungian psychology showing how to work with dreams and visualization to help better communicate with yourself and others in many respects it remains one of the simplest clearest and most profound expositions available on a magical and psychological approach to the qabalah view from the big hills i highly recommend this book to anyone interested in the qabalah with the intention of utilizing it in ritual and even everyday life practices the steps required to manifest your dreams into reality are easy to follow once you know how rev skwyrn

this small book is in no sense a treatise on the qabalah instead it is a speculative study on one of several secret doctrines which it contains and i believe the key

doctrine of all the others should this be correct then it follows that unless this doctrine is understood the whole symbolism of jewish mysticism must remain obscure and it is this mysticism so it seems to me which constitutes the foundations of jewish culture and jewish aspirations granted that this is so then it follows that the idea elaborated in this book is one of considerable importance even if many of my interpretations are faulty even if the whole of my readings are wrong which is unlikely this in itself does not necessarily invalidate the idea for example columbus believed that the world was round and he set out to prove it in doing so he discovered a new world which though it did not at the time actually confirm this idea established a stepping stone to the circumnavigation of the globe which did confirm it in an obvious and uncontradictable way so also in this book i have set out to penetrate the mists of qabalistic learning not because i presume to be an adept in its mysteries but because i suspect that they hide within them the idea of a new world conception an idea which for 2000 years has been struggling to take form should i be right in this belief then it follows that once this form consolidates from out of it will emanate a new ideology which will exert so stupendous an influence upon our lives that it will constitute a world revolution nevertheless i do not intend to touch upon this possibility in the present work for all i will attempt is to show that the idea is valid therefore my object is solely to examine and explain it in order to establish it as a fact j f c f

situated at the top of the tree of life on the middle pillar of equilibrium kether represents spiritual perfection at this level we are dealing with the intangible therefore as with all the previous sephiroth in this series of workbooks the approach to kether must be a practical one in this workbook we attempt to see through the veil of our earthly perceptions we explore the existence of other dimensions and try to connect with more advanced energies and by using an inner spirit meditation enter the dwelling place of our spirit

discover how to use the spiritual teachings of the tree of life to learn more about yourself improve your experience on earth and fulfill your life purpose the qabalah is a western non religious mystic tradition differing from the kabbalah which is an aspect of jewish mysticism offering teachings on the nature of divinity the creation the origin and fate of the soul and the role of human beings it consists of meditative devotional and mystical practices including astrology tarot and magic the central organizational system of the qabalah is the tree of life a mystical symbol consisting of ten interconnected spheres and considered to be a map of the universe and the psyche the order of the creation of the cosmos and a path to spiritual illumination this introductory book breaks down the ideas of the tree of life into an easy to follow path and shows how to use it effectively in our lives readers will learn the meaning of each of the spheres a ritual and a meditation for each sphere the gods archangels crystals and magical tools connected to each sphere and how to work with them how to set up a personal temple and create their own magical symbol how to chant the qabalistic prayer to draw down the archangels for protection this book was previously published in the hay house basics series

in practical qabalah magick the most effective qabalistic practices created by the great qabalists of the past are united in one place with techniques developed by the authors drawing on their own research and inspired by the rich heritage of the western mystery tradition
